OUR OLIVE OIL

-Varieties

The Marques de Griñón extra virgin olive oil is a blend of the Picual and Arbequina varieties.

Picual is typical of the Andalusian province of *Jaén*. It has a high polyphenol content conferring it a high antioxidant content and long life qualities. Given our altitude and cooler climate, our *Picual* combines these typical characteristics with a complexity and finesse, which has astounded experts worldwide.

Arbequina originates from the *Borjas Blancas* region near *Lérida* in Catalonia, famous for its velvety floral aromas which soften and complement those of the *Picual* variety.
